## ANNOUNCEMENT

In presenting to the Trade our line of DOOR BELLS and TRIM, we have made a NEW DEPARTURE from existing practice which we are sure will meet with cordial reception.

To show a bell with its accompanying trim full size requires a large and inconvenient volume, whereas by the method herein adopted the various articles are shown one-half actual size, thus occupying but one-quarter of the area otherwise required.

The result is a neat, compact volume that may be readily carried in the pocket, and which, being sent through the mails without folding or rolling, is much less liable to be received in soiled or torn condition so frequently the case with large catalogues.

THE NEW DEPARTURE BELL COMPANY,  
BRISTOL, CONN.
